

SELEKTA[®] GS PREMIUM M42

HIGH PERFORMANCE, SUPERFINISHING AND EXTRA BLADE-LIFE

NEW!

- high cutting performance
- best surface quality
- extra-long lifetime

SELEKTA® GS PREMIUM M42

High performance, Superfinishing and extra blade-life

With the new development of the hard material-coated version of SELEKTA® GS M42 we meet high requirements on performance and lifetime.

With the special coating in combination with the patented tooth geometry it is possible to achieve a considerable increase of blade life compared to the uncoated version. The cutting performance is at least the same. Furthermore, the processed material is characterized by a high surface quality.

YOUR ADVANTAGES AT A GLANCE

high cutting performance
due to patented performance and surface teeth

high efficiency
due to an excellent blade-life

low finishing
due to perfect surface quality

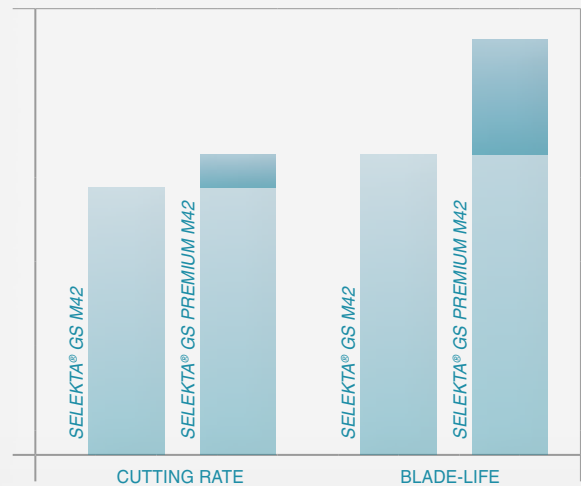

lower material allowance
by exact gating

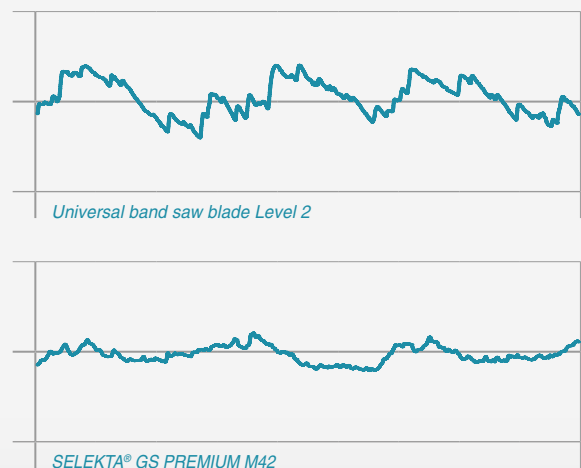

low friction
due to back edge coating

HIGHER BLADE-LIFE, INCREASED CUTTING RATE

Roughness of the cut surface

Fields of application:

- solid material
- metals up to 1400 N/mm² tensile strength

Characteristics:

- M42 tooth edge with special coating
- patented performance and surface teeth
- back edge coating for less friction
- smooth, low vibration and very long running
