

PRESS RELEASE

WIKUS optimizes the proven universal band saw blade MARATHON® M42

Spangenberg, August 2017:

Now even more efficient and of highest quality

WIKUS-Sägenfabrik, Europe's largest manufacturer of band saw blades, presents the further development of its universal bimetal band saw blade MARATHON® M42 for medium-sized and large cross-sections.

MARATHON® M42 is the epitome of economic sawing. The proven product characteristics include, among others, a M42 cutting edge with positive rake angle, variable tooth pitches and consistent high quality.

The new process design for the production of the successful product MARATHON® M42 further improves blade-life and efficiency. Moreover, the superfinishing of the cutting edges results in a better cutting surface. The fine blade surface saves the blade guides of the machine and increases the fatigue strength. The result is a reduced need of finishing. The broad application range reduces downtimes and set-up times thanks to less blade changes. Thus, the user profits from considerable cutting cost savings and increases his cost efficiency significantly.

All dimensions will be adjusted to the optimized version gradually.

About WIKUS

WIKUS – HIGHEST QUALITY „MADE IN GERMANY“

WIKUS is one of the world leaders in the metal cutting sector and Europe's largest manufacturer of band saw blades. Users from the following most varying fields trust in the highly efficient solutions offered by WIKUS: steel production, steel trade, foundries, machine and tool construction, aerospace, automotive, construction or energy industry.

Since 1958, WIKUS-Sägenfabrik from the North Hessian Spangenberg guarantees highest standards in the production of high-tech band saw blades with high-quality raw materials, up-to-date manufacturing methods and continuous quality assurance. At the same time, the family-run business sets leading product and technology trends with its innovative power on the market. In addition to the high performance product range, WIKUS offers comprehensive services which are adapted to each product. Partner companies as well as sales and service companies all over the world offer competent, personal support on-site.
